Streets

~~Mass. Ave. w/ Severan & Beacon,      NO MASS AVE.~~  
~~Commonwealth, Huntington~~  
~~+ Harrison.~~

---

~~Beacon from Mass Ave. crosses Clarendon,~~  
~~Berkley, Charles, is next to Spruce, Jay,~~  
~~Parke, crosses Tremont + becomes School St.~~

Oreuburg's drawn map is so random <sup>+ sparse</sup> in the Back Bay Area there is little print in annotating it. His "downtown" area, however is full and accurate - it runs bet. Baylston-Essex and State-Corv. Tremont, Washington + Chauncey give it its depth. He knows many of the intersecting sts. + their ties - Avery, West, Temple Place, Winter - Summer, Milk, Franklin + Water. Federal & Congress run from Milk to State. This is the extent of his map except for a few slightly indicated Back Bay Sts.

Oreuburg's interview map on the other hand shows a pretty good knowledge of Back Bay, a complete one of Beacon Hill + of the area between Park St, Summer - Winter + Cornhill. The actual downtown financial does not come thru so clearly - though many sts. are given a label. In his case in particular I think the interview map is a necessity if one is to realize that he has ever clambered out of the business <sup>+ shopping</sup> end of town.
